

DATATEL

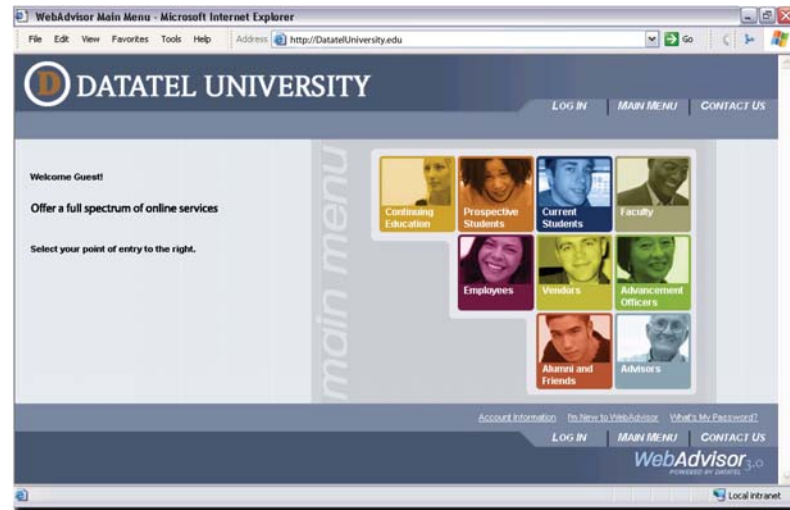

Colleague WebAdvisor

Your Institution Open All Night

Our society is changing with the click of a button. Almost anything can be found, purchased, managed, and reviewed online — any time, day or night. And your institution's broad range of constituents expect that same level of self-service to manage their educational experiences. Whether that is a student registering for summer courses, faculty submitting grades, or a staff member reviewing his/her benefits — Datatel® Colleague® WebAdvisor gives your constituents access to that information and more, with a simple click.

WebAdvisor enables your institution to offer a full spectrum of online services through innovative business workflows and sophisticated forms. Community, services, e-commerce, and e-learning offerings are available with a single sign-on — making it hassle free to manage their education. WebAdvisor seamlessly integrates with Datatel Colleague, higher education's most advanced enterprise resource planning solution, so all the information your constituents need is fed in real-time from one central, secure location.

/// DATATEL

PERFORM KEY BUSINESS OPERATIONS ONLINE...

Designed specifically to follow the unique business processes of higher education institutions, WebAdvisor forms and workflows meet the self-service needs of your constituents — students, applicants, faculty, employees, advancement officers, alumni and friends, and members of the community.

Students

WebAdvisor gives students direct, easy access to their personal academic information.

- Access grades, GPA, and schedules with a single sign-on
- Register, add, and drop courses without waiting in lines
- Calculate credits needed to graduate
- Plan their academic career toward the completion of a degree or program, and contact advisors online
- Pay for courses and check financial aid status using a secure, online e-commerce solution

Faculty and Advisors

Faculty members can turn their focus on teaching and advising because they will spend less time on administrative tasks.

- Retrieve complete rosters for all classes
- Review real-time information about class schedules
- Generate a specialized advisee list with e-mail capabilities at the click of a button
- Document advising sessions online
- Conveniently enter grades in one location. This information is integrated with your administrative system and distributed to the proper departments and individuals

Alumni

Alumni and friends of the institution can receive updated information and conduct transactions via WebAdvisor's e-commerce component.

- Conveniently make direct donations or pledges to the institution via credit cards
- Receive institution solicitations via e-mail campaigns
- Easily enroll and pay for continuing education courses

Employees

Your employees can save time by checking vital, personal information online — all within a secured environment.

- Verify real-time information on paychecks, vacation hours, and earnings-to-date
- Change personal information, including addresses and names, from the convenience of a personal computer
- Gain immediate access to accounting information with individualized security limits
- Provide vendors with secure access to invoice status and other information, and alleviate your institution's burden of having to answer those questions on a request basis

SECURE FINANCIAL TRANSACTIONS

Financial transactions are secure and completed in real-time with WebAdvisor's advanced e-commerce solution. Aligned with your institution's Internet security strategy, WebAdvisor ensures that unauthorized users cannot intercept or enter information. In addition, security and encryption techniques adhere to your institution's transaction rules, and secure credit card information.

FLEXIBLE, ADAPTABLE TECHNOLOGY

WebAdvisor incorporates an open architecture infrastructure to easily integrate your Web site and third-party software resources, expanding the reach of the online educational experience. WebAdvisor can be distributed on an existing Web site, operate as a self-service Intranet, or integrate seamlessly within your community portal. And you can easily support your institution's unique branding through WebAdvisor's customization features and style sheets.

FULLY COMPLIANT WITH SECTION 508 ACCESSIBILITY GUIDELINES

WebAdvisor is the first Web product to fully comply with the Level A Accessibility Guidelines of the World Wide Web Consortium and Section 508 — Electronic and Information Technology. Section 508 requirements ensure that individuals with disabilities have the same access to, and use of, information as those without disabilities.
